

# Durable Eaves Solutions

## Continuing Professional Development (CPD)

Alutec as a leader in their field understands the importance of architects and specifiers to maintain their professional accreditation and stay completely informed about the changes in the construction industry. This is why, after so many years of experience and industry knowledge, Alutec is pleased to announce the launch of their new CPD presentation.

**Alutec's CPD seminar is accredited by the Royal Institute of British Architects (RIBA) and covers the required topics under RIBA's core curriculum.**

## Seminar Content

- Aluminium and the environment
- Durability
- Design
- Fascia, soffit and coping systems
- Rainwater systems
- BIM
- Technical and installation support

## Format and Registration

The seminar is free of charge, held at the participants' premises and includes the offer of complimentary lunch buffet for delegates attending. The duration is up to 1 hour giving you a valuable opportunity to explore the topics in more depth. Delegates attending the seminar will be able to take full advantage of our broad knowledge and expertise by taking the opportunity to ask project based questions.

**Do not miss out! Book your space today!**

## About Alutec

With an extensive portfolio of highly sustainable products, Alutec is the UK leader in innovative aluminium rainwater, fascia and soffit solutions.

Committed to delivering the excellent service and technical expertise that only comes from partnering with a specialist manufacturer, Alutec offers a full turnkey service, from the development of initial designs, to the delivery of detailed estimates and on-site assistance.
