

HIGH STREET SUPERMARKET, ASHBY DE LA ZOUCH

ARP LIMITED

ARP was approached by a local developer for a well-known high street supermarket chain to provide a roof drainage solution comprising of a high capacity modern looking gutter system that would work with an extension to their existing store and the replacement of the gutter that was already in situ.

ARP supplied 'Sentinel' 200x150mm modern Ogee gutters coupled with 'Colonnade' 76mm diameter swaged rainwater pipes designed, in this instance, to fix back to radius columns. Modern Ogee gutters are formed from extruded aluminium and are supplied with a complete range of accessories manufactured from aluminium alloy 6063 T6 to BS1474: 1972 and the product complies to, or exceeds all relevant standards.
