

**HEDGERLEY RENOVATION PROJECT  
HARGREAVES DRAINAGE LIMITED**

This was a renovation project of Hedgerley, a Georgian-style private house in Buckinghamshire.

For this house Hargreaves Drainage supplied Premier Extra rectangular pipes and hopper heads, finished in black.

Hargreaves worked closely with the client and contractor with frequent site visits by the customer support team to advise on appropriate designs and product. The symmetry of the Premier rectangular pipes and heads worked perfectly with the classical lines and proportions of this impressive Georgian building.

The house featured lead parapet gutters and Hargreaves were able to dress the lead gutters directly into the back of the hoppers, which were adapted for the purpose, thus allowing them to discharge effectively without being visible.

This project was supplied and coordinated through Grant and Stone Ltd, plumbers merchants in High Wycombe.
