

**HUNTSHAM STABLES TIVERTON
HARGREAVES DRAINAGE LIMITED**

The Huntsham Stables project in Tiverton is a re-development of attractive old stable buildings in a courtyard setting, to provide luxury apartments. For this conservation project, Hargreaves Drainage supplied Premier Extra standard G46 gutters and fittings and Premier Extra sand cast rectangular pipes and ornamental rainwater heads were also supplied. The products were factory coated in a heritage red colour to match the frames on the feature windows. This project was supplied and coordinated through Travis Perkins.
