

GARDEN ROOM & SKATE PARK, HAMPSHIRE
LINDAB BUILDING PRODUCTS LIMITED

Builder Ian Gray embarked on a major garden refurbishment to build a skate park and BBQ garden room at his own family home in Fareham, Hampshire.

Having never worked with Lindab Rainline before Ian selected a plain galvanised system to complement the stylish design of the timber building.

A key feature of the building is a truncated hipped shape roof with a raised gutter which provides shelter for the entrance to a covered seating area.

Ian said “We did this build as an on-site example of what we can do and have taken orders for five so far”, “Rainline was very nice to work with” adding, “Thanks to Lindab for such a great product and service”.
