

FEBRUARY 2017

Sustainable residential systems on show

For the third year running Lindab will be exhibiting at Homebuilding and Renovating Shows.

Lindab residential ventilation solutions and rainwater systems are being showcased at three Homebuilding and Renovating Shows in 2017.

Self-build specialists, renovation experts and hundreds of leading brands will all be under one roof to provide inspiration, ideas and advice for self-builders, developers and designers.

Lindab's lightweight, easy to install steel rainwater system will also be on display in 11 colours including the new Magestic galvanised gutter range which offers improved performance against corrosion. Visitors can feel the quality of the simple, well designed components; discuss installation tips; and pick up a colour swatch.

Visitors to the shows will be able to speak directly to Lindab experts to find out how residential ventilation solutions can stop unnecessary energy losses, enhance indoor climate and cut running costs.

Come and see us at:

- The National Homebuilding & Renovating Show at the NEC, Birmingham on 23rd - 26th March 2017
- The Scottish Homebuilding & Renovating Show at the SEC, Glasgow on 20th - 21st May 2017
- The Southern Homebuilding & Renovating Show at Sandown Park, Surrey on 1st - 2nd July 2017
