Roofline to Roofing Introducing Lindab Seamline

Known for their steel rainwater system, Swedish building product manufacturer, Lindab, are bringing their standing seam sheet roofing solution to the UK.

One of the foremost advantages of steel standing seam roofing is flexibility. Lindab's steel sheeting is extremely formable. A skilled installer can work the material to fit any roof design, no matter how tricky it may be.

Strong coatings in a wide range of traditional and modern colours are available in a choice of finishes.

New textured finish standing seam offers revolutionary design and quality. Scratch-resistant DuraFrost PLX steel has improved corrosion resistance and is one of the market's most durable materials.

Matt and gloss finishes of GreenCoat PLX steel with a high build polyester coating resist scratches and general wear and tear offering longer-life protection and making frequent maintenance a thing of the past.

Lindab Magestic is galvanised steel material with a strengthened magnesium-zinc alloy coating. Unpainted galvanised sheet steel is a timeless and exclusive roofing material. It requires virtually no maintenance and has natural beauty, which is a joy to behold for many, many years.

Flashing sheets and Lindab's renowned steel rainwater system, Rainline, are available to match or complement Seamline colours and finishes.

UK enquiries and orders for Lindab building products are managed locally through the sales and distribution centre in the West Midlands.
